GREEN PLANET

Our objectives

Offer a clear definition on the options available to be more environmentally friendly.

A

To provide an Eco friendly 'One stop shop' solution for customers in the hospitality sector, giving them the option to choose the right solution for their business.

B

To offer a wide range of sustainable products for the change in eating styles ie Street food, home delivery, food and drinks to go.

C

To be the most reliable source of information on the fast moving legislative changes surrounding packaging, waste material and market trends.

Summary

In a perfect world we would switch everything to reusable.

However the hospitality / catering market needs a mixture of reusable, recyclable and compostable, and the objective of Green Planet is to give you the choice that meets their needs, meets the legal requirements and is the correct solution for their business.

Neofusion

Neofusion takes its inspiration from mineral matter and comes in 3 different colour ways: Volcano, Ember and Sand, which can be combined with each other or with white porcelain. Each and every piece has the strength of porcelain and the look of ceramic due to a highly durable, hand-sprayed, non-porous glaze. Neofusion shows great contrasts between its raw appearance and the dishes' refined ingredients, providing a spectacular culinary experience.

Coloured Ora

In collaboration with the world-renowned Studio Levien London, with extensive research and in depth design work, we are delighted to present ORA – a full range of tableware in resilient high-alumina ceramic body and sustainable Acacia woodware.

ORA combines beauty with practicality, the design inspiration for the organic shape is sea washed pebbles; ORA is the Latin word for beach.

It meets all the durability, stacking and handling requirement of the Horeca market.

Stonecast® PATINA

Stonecast Patina is inspired by tones and surface texture created naturally over time, shaped on materials such as metal, stone, leather and wood. Patina is a modern interpretation of the antique sheen effect created by ageing. The nature of the manufacturing process means that each piece is unique.

Stonecast® Plume

The hand decorated Stonecast Plume design interprets the fluidity of painting mediums. A unique formula creates layers of colour that interact and blend together, forming the characteristic Plume effect. Hand decorated, every piece of Stonecast Plume is a unique creation with variation in pattern and the balance of light and dark tones.

Aurora™

Integrates perfectly with Revolution and Vesuvius

Aurora, our most recent glaze innovation is all about combination. To do this we have developed a method of showcasing two different glazes on the same piece.

The beautiful two-tone glazes integrate perfectly with Steelite's Revolution and Vesuvius ranges, creating tabletop presentations that are unique and desirable.

The new **Aurora** range is the very latest innovation from Steelite International. **Aurora** uses reactive glazes in combination to achieve stunning colour and contrast effects.

Two reactive glazes are used on each item, either to create contrast or to achieve a more sophisticated tonal look. The effect is one of richness and vibrancy.

Aurora is backwards compatible with both **Revolution** and **Vesuvius** ranges to further extend a creative and versatile presentation.

Ink Legacy™

Evoking a sense of heritage

This bold range pays tribute to the faded opulence of antique decoration. Like finding a treasure-trove of heirloom pieces, Legacy inspires and delights with its playful, casual mix of relaxed style and comfortable living. The range contrasts and coordinates with other Performance collections to create an eclectic array of off-the-shelf bespoke possibilities. Dapples, Vesuvius glazes and Craft all work together both functionally and aesthetically to enable Chef to uniquely present his culinary vision, whatever the menu type.

Glass Decorating

A high-quality logo or badge on any glassware will project your style and reinforce your unique brand to all customers.

Our process is simple and easy to follow, and gives you a high quality product at a low cost. Choose your glass type, add the guide decorating cost, and if that's in your budget, send us artwork and 3 to 4 weeks later you can have your delivery.

That's it !!

Bespoke Glassware in 3 easy steps

Step 1

Select your glass shape from our popular ranges or choose from our catalogue. Capacity lining, CE stamping and nucleation are all available on request.

Step 2

Contact our sales office, and send us your artwork in one of our approved formats. We will confirm the price and advise on artwork suitability. A visual of your glass selection will follow within a few days.

Step 3

Approve the price and visual of the glassware and we will deliver your order within 4 weeks.

Bullet points from independent report* :

- Eco Glassware will breakdown when composted in the right conditions (heat, moisture and bacteria), leaving no waste and the product returns to the earth
- Under an accelerated weathering test, simulating a disposal in the open environment, this product fully degrades
- Eco Glassware utilises a new generation of biodegradation technology with enhanced degradability performance
- The product is fully compatible with the recycling stream

Report conclusion : If inadvertently discarded in the open environment, the cup will safely degrade and subsequently biodegrade leaving no microplastic nor harmful substances behind.

**Report from Polymateria Limited, Imperial college, London. Available on request.*

PROFESSIONAL**NEW!**

NEW! Scotch-Brite™ 2 pads in 1. Powerful cleaning!

New Scotch-Brite™ Dual Purpose Scour Pad features a yellow, raised power dot side that has been engineered to clean tough baked-on food. The green side scours away fine particles and grease, leaving a clean shiny surface.

The Scotch-Brite™ Low Scratch Scour Pad is a powerful two in one scouring pad. It features a raised power dot side that is engineered to scour away tough messes like a medium duty pad with less visible scratching. The dark blue scour pad side removes fine food soil to give a virtually spotless finish.

Slim Jim® Recycling Station

- **Customised recycling:** select different waste streams to build a station that fits your recycling needs.
- **Designed for ease of use:** slim footprint fits into tight spaces, while hinged lids allow larger recyclables to easily fit inside
- **Sustainability:** Contains recycled resin content (PCR), and incorporates recycled material
- **Durability:** Commercial heavy duty grade construction that will last
- **Venting channels:** Make removing liners up to 80 percent easier:
- **East to construct:** Components snap in place without the use of hardware.

3M Floorpads

NEW! Scotch-Brite™ Clean & Shine Pad

Clean and shine your floors at the same time.

Shines the floor as you clean. With repeated use, your floors gradually achieve burnish-quality results without the extra step of actually burnishing. Using a low-speed auto scrubber with plain water or neutral cleaner it removes scuff marks faster than traditional floor pads, and lasts significantly longer.*
